

Congratulations on taking the first step toward a more energy-efficient home! You recently completed a Home Energy Audit and expressed an interest in our Home Performance Rebate program, which offers cash back when you implement five or more recommended energy-conservation measures. Our exclusive Home Performance Rebate program contractors have been trained in whole-house home improvements and in our rebate program, making it simple and easy for you to participate in the program. You must select a contractor from our list to participate in the program and receive rebates.*

* Xcel Energy does not guarantee the contractors' expertise or reputation; does not warrant any of the products or services installed; or promote the use of one contractor over the other. Xcel Energy shall have no liability for contractors' work or negligence.
